

WE DO THE HEAVY LIFTING!

J&B
est. 1961
Material Handling - Simplified

Material Handling—Simplified

From the very first day we opened our doors in 1961, J & B has done the heavy lifting for our customers through:

- Understanding their specific and specialized needs
- Exceptional application engineering
- Expansive product and application knowledge
- Creative and “out of the box” solutions thinking
- A “can do” attitude, delivering solutions others thought impossible
- Superb equipment manufacturer partnerships
- A Knowledgeable and long tenured staff

J&B has configured and integrated systems solutions to meet every need and application:

- Monorails
- Bridge Cranes
- Jib Cranes
- Workstation Cranes

A commitment to lifetime customer support has lead to our customer’s complete satisfaction. J & B Equipment provides trained personnel to assure the highest quality support for all of our solutions.

Full Engineering & Design Capability

Parts Department

Service Department

“QUALITY PRODUCTS and QUALITY PEOPLE deliver a long term commitment to CUSTOMER SERVICE!”

Every great company has a distinctive competency that sets them apart and contributes to their longevity. The same can be said loudly about J & B Equipment Company. Our brain trust delivers the best value for its clients by:

- Teaming with “best of class” manufacturers, and knowing their strong points and sweet spots.
- Negotiating for the very best pricing from our partners as rewards for our loyalty for nearly a half-century.
- Pulling together the best answers from our varied partner- manufacturers to deliver the best-valued solution to meet our customer’s special needs.
- Supporting these solutions by offering service, parts, inspections and training
- Keeping an eye on cutting edge new technologies to enhance our offerings and deliver solutions seldom seen in our industry.
